

Scenarios

Syllabus Creator

Username: syllabus

Password: testing11

As a Syllabus Creator, I want to add a topic that starts in week 46 and lasts for 2 weeks. This topic will be on functions. I then want to create a task for the content creator and moderator to complete the questions.

Content Creator

Username: creator

Password: testing11

As a content creator, I want to view the tasks assigned to me and complete the questions according to the instructions.

Content Moderator

Username: moderator

Password: testing11

As a content moderator, I want to view the tasks assigned to me and change the status of questions that have been created. I would also like to comment on a question that has a mistake in it.

Platform Manager

Username: manager

Password: testing11

As the platform manager, I want to browse the tasks that are currently open, and get an overview of syllabi.

Student

Username: student

Password: testing11

As a student, I want to login and answer some questions.
