2016 06 27

Present: Praekelt Head of Engineering
               Dig-it Project Manager
               Dig-it Platform Manager
               Dig-it Content Uploader
               Nathan Begbie
               Ethan Marrs

Not sure how questions are released to graduates

Questions are 'stacked' - you can only do max 3 on Monday, 6 on Tuesday etc. But only if those questions are not attempted.

Task Analysis
Identify users of the system
        Syllabus manager
        Content creator
        Platform manager
        Moderator
        Community Liaison

Identify theoretical users

Person:

Course Managers

Course Mentors

Groups

Learners

Teachers

School Managers

System Administrators

Syllabus manager

Maro tasks:
Each year decide on what content each syllabus gets
This may include 'placing an order' for content
Or 'transferring' content from previous year.

Micro tasks:
Who do they communicate with?
What info/data do they have access to?
What is their purpose in the platform?
Time frame for doing things?

We define a syllabus at a grade level
